We offer you our Spanish guitarists with a wide experience in national and international theatres, as well as in private events. They are the perfect choice to perform at wedding ceremonies or to entertain at a dinner or cocktail party.

We also have our flamenco guitarists, with whom you can enjoy specific flamenco techniques; if you also want a lighter and more festive music to dance to, i.e. “flamenquito” (a combination of rumbas and sevillanas), we recommend that the guitar is accompanied by dance, cajón (box-drum) and palmas (hand clapping).

Our talented, professional and experienced guitarists will enrich your evening by accompanying you with your favourite music.
